# SINGLE BULLET? or BOLD-FACED LIE!

40 YEARS LATER, THE JFK MURDER MYSTERY ENDURES...

Follow the twisted path of truth and deceit . . . dissect the unanswered questions with the case's top experts in this incredibly revealing 8-DVD set.

NOVEMBER 22, 1963...THE MURDER OF PRESIDENT JOHN F. KENNEDY IGNITES 48 HOURS OF MAYHEM AND OUR COUNTRY'S MOST ENDURING MURDER MYSTERY. His alleged killer, Lee Harvey Oswald, is arrested within hours...only to be gunned down by Dallas nightclub owner, Jack Ruby, two days later. Was Kennedy's death a coup d'etat? Or, did the obscure Oswald act alone?

Fast forward, 1964...the Warren Commission's single bullet conclusion affirms Oswald as the lone shooter. Bewilderment abounds over the bullet's improbable—many claim impossible, even *magical*—trajectory explanation. Other spine-tingling phenomena and muddled events of the crime...*why were Kennedy's limousine and Governor Connally's clothes thoroughly cleaned before anyone could examine them...* convince many the President's attack was a planned and abhorrent conspiracy.

Immediately, independent investigators arise—from the academic, forensic scientific, legal and medical communities—to research, reconstruct and surmise what really happened.

## Into EVIDENCE...

Do you solemnly swear to learn the whole truth?

In the four decades since the assassination, modern forensic science techniques, intense research and incessant investigation suggest a JFK murder scenario drastically different from the one portrayed by the Warren Commission.

All rise . . . and discover why!
